Rafael Matovelle

Full Stack Engineer @ Software Mind | QA Engineering, Full Stack,
Data Science
Quito, Pichincha, Ecuador

Extracto

I'm a Full Stack Engineer with experience in QA automation and Node.js development. I've led teams in frontend development and QA engineering, working on testing frameworks, automation, and fullstack applications across various R&D projects. My work includes building automated testing tools with Python and developing web platforms with Node.js, Vue, and WebGL.

I work well with cross-functional teams and enjoy the collaborative aspects of software development. Being fluent in both Spanish and English helps me communicate effectively across different teams and projects. I've had the opportunity to lead projects and work with other developers, focusing on practical solutions that balance quality with delivery timelines.

My technical background covers testing frameworks, AWS infrastructure, and a range of development work from AR/VR to web platforms. I try to bring the structured approach from QA work into fullstack development, building systems that are functional and maintainable without overcomplicating things.

And always show a smile

Experiencia

Software Mind North America
Quality Assurance Specialist
noviembre de 2023 - Present (2 años 7 meses)
Applying automation and tools to data science.

Remoose Interactive
Full Stack Engineer
diciembre de 2023 - enero de 2026 (2 años 2 meses)
Vancouver, British Columbia, Canada

- Worked as part of the R&D team to create remoose
- Rapid prototyper and Fullstack developer

VivoEnVivo

Copropietario

junio de 2019 - septiembre de 2024 (5 años 4 meses)

Ecuador

Events and mostly contact sports streaming platforms.

RocketSnail

Front End Lead

mayo de 2023 - diciembre de 2023 (8 meses)

Vue - Lottie custom framework creation.

BairesDev

Software QA Analyst R&D Team

enero de 2022 - abril de 2023 (1 año 4 meses)

Develop and automate QA tools and testing framework with Python.

QA manual and automated testing.

AWS

number8

Lead Software QA Engineer

mayo de 2019 - enero de 2022 (2 años 9 meses)

Metrodigi, Inc

Ingeniero de software

2017 - mayo de 2019 (2 años)

Independiente

AR and VR Developer

mayo de 2015 - abril de 2018 (3 años)

Developing a company oriented on Virtual Reality, Augmented Reality, and videogames applied to the advertisement industry.

Pink Parrot
